B.I., Incorporated	iSecureTrac
Biometric Corporation	OmniLink Systems
Elmo-Tech	Protech
G4S	Satellite Tracking of People LLC
Integrated Location Services	SecureAlert
	Sentinel Offender Services

Welcome to the tomorrow of today!

For the last few years, our agency has referred to GPS-EM as the “New Generation” of electronic monitoring of defendants/offenders. Through our extensive testing and use, we have proven this to be true. While other agencies continue to cling to the familiarity of an older generation of EM technology (radio frequency or RF), GPS technology has not only proven itself as reliable, but has become more affordable, more practical, and more user friendly since its costly and bulky inception in the early 1990s.

Because of our success with using GPS EM technology and our subsequent belief in its merits for more effective monitoring, we have encouraged its use by our colleagues and fellow pretrial/probation agencies.

This program is hosted by our agency and supported by nationally-recognized GPS/EM experts. It is our hope that you find the presentations and interaction to be informational and helpful.

Arrival - Tuesday, September 19th

3:00 p.m. and after

Hotel Check-In

6:00 p.m. - 11:30 p.m.

Hospitality Suite - Early Arrival
Reception with light refreshments

Day 1 - Wednesday, Sept. 20th

7:30 a.m.— 8:30 a.m.

Continental Breakfast & Registration

8:30 a.m.— 9:00 a.m.

Welcome & Opening Remarks

George M. Walker
